Dear Steve,

PROPOSED IWMF, RIVENHALL AIRFIELD TRAFFIC ASSESSMENT

It is our understanding that from a highways and transportation perspective there have not been material changes within the study area of this scheme since the previously submitted assessment work. Furthermore, we understand that changes to the scheme that would materially affect traffic movements to / from the development proposal are not proposed in conjunction with the current planning application.

In the light of the above it is concluded that, the previously submitted highway and traffic assessment work for the IWMF proposal can still be regarded to provide an acceptable indication of the likely effect of the proposal on the local road network.

Please do not hesitate to contact us should you have any queries or wish to discuss this matter further.

Yours sincerely

Justin Bass
Technical Director of Intermodal Transportation Ltd
